CHANCELLOR'S MESSAGE TO THE BATCH OF 2021 GRADUATES OF THE UNIVERSITY OF WOLLONGONG MALAYSIA KDU

Graduation is a major milestone and significant highlight of one's journey through life. Congratulations on this wonderful achievement and you, your family and all those who supported you should be extremely proud of this accolade. While many of you may feel that this is the final educational phase of your life, there is nothing further than the truth. Education is never ending and while you leave this University equipped with your degree or diploma it is just the beginning of a lifelong learning and experiential process.

While a University qualification may have given you a head start especially in the area of your study, all round success requires more than the competency and the skills that you have newly acquired. To help you along your journey, perhaps I can share some words of wisdom given by my visionary predecessor, the late Dato CQ Teo who propounded that to be successful you need to have the values of **TRIBE**, an acronym for **Trust, Respect, Integrity, Bravery and Energy** which are self explanatory in their intent. He advised that you must also combine these values with the formula of the **3Es** representing English which is a language you need to master for global access, Entrepreneurship to explore new business opportunities and ventures and **EQ** which is the emotional and behavioural character of the person.

The late Dato CQ Teo's good success and life well lived is testimony of the values and principles he preached. I am pleased to say that my own value system and beliefs resonate with Dato Teo's. The principles which I subscribed to are based on the **8Cs** representing firstly **Competency** - which all of you have achieved some level of success having graduated from this University; **Captaincy** - the willingness to take on responsibility and leadership roles; **Commitment** - work with diligence and a spirit of excellence; **Courage** - entrepreneurship and boldness to try new things and make decisions; **Connection** - developing relationships and building up and widening both your social and business network; **Customer-centric** - recognise that whatever career or vocation you undertake will most likely be in the services sector where customer is king. So treat not only your external clients but also your internal customers like one; **Compassion** - humanising a very materialistic and monetary value world with charity, gratitude, kindness and love and lastly the eighth C is **Credibility** - arguably the most critical for success as respect and support would be earned if one has high standards of integrity and honesty. governance practices would establish one's credentials and reputation which in the long term would ensure one's sustainability and success.

So as you celebrate this memorable graduation and rejoice with your family and friends, remember that you are only at the starting block of the next stretch of the race. As you step out proudly into the World confidently armed with your scroll and the invaluable education that comes with it, you will do well to be reminded that you need to garnish your education and lifelong learning with the seasoning of **TRIBE**, the **3Es** and the **8Cs** to help you future proof and attain all round success ultimately.

May I once again congratulate all of you on your graduation and on behalf of the University of Wollongong Malaysia KDU wish you the very best in your endeavours.

CONGRATULATIONS ON YOUR GRADUATION FROM UOW MALAYSIA KDU

You are now members of the UOW global family for life and as an alumna myself, I'm proud to say it is a wonderful and supportive community that you now join.

I know the calibre of your curriculum and the commitment that you have demonstrated, and I share in the pride and warmth of your families on this special occasion.

As you embark on the next phase of your journey, no matter the challenges you've been through in the past, I remind you that the future is the only thing you have the power to change. Shaping our future, particularly in the context of the global pandemic, has a renewed sense of urgency. The COVID-19 pandemic has exposed cracks in leadership, and supply chain and governance, but has highlighted amazing successes in teamwork, humanity, and the power of science. We know things will never be the same but **you** have the power to shape a better future.

As Vice-Chancellor and President at the University of Wollongong, I want you to be safe, happy and well.

You deserve the very best. Go forward, do great things and congratulations.

Vice-Chancellor and President,

ABOUT UOW MALAYSIA KDU

KDU is now part of the University of Wollongong Australia Global Network

UOW is committed to becoming a pre-eminent provider of higher education in Malaysia. The commitment combines UOW's internationally recognised teaching programs and personalised approach to students with KDU's 38 years of experience in private tertiary education, modern campuses and vibrant, industry-focused programmes. UOW's presence in Malaysia will benefit the wider region, by producing international student growth and industry-ready graduates.

Established in 1983, KDU was Malaysia's first purpose-built private college that provided opportunities for Malaysian youth to pursue high-quality overseas tertiary education in a local setting. Riding on the success of the Damansara Jaya campus, a second campus in Penang was established in 1991. KDU University College Penang, located in Jalan Anson, offers a range of academic, professional and commercial programmes to a growing student population in the northern region. In August 2010, KDU College Damansara Jaya was upgraded to University College status – a reflection of its quality programmes, excellent teaching facilities, and strong industry partnerships. KDU University College then moved to its new flagship campus at Utropolis Glenmarie in January 2015. With its state-of-the-art facilities and a contemporary teaching and learning environment, it offers programmes at Diploma, Bachelor, Master degree and PhD levels and has introduced home-grown degree programmes that are at the forefront of growing industries. These include hospitality, tourism and culinary arts, game development and computing, communications, creative arts, business, and engineering.

Through its global connections and real-world learning opportunities, KDU has nurtured many bright minds from different backgrounds, cultures and nationalities, inspiring them to make positive contributions to society. It has provided a platform for practical, impactful ideas to grow and for students to reach their potential.

As the first institution to have a purpose-built campus within a larger sustainable ecosystem and being the first to offer twinning programmes in the nation, KDU has broadened opportunities for its 65,000 graduates, who have gone on to find success in a range of fields, including in careers as corporate leaders, entrepreneurs and celebrities around the globe.

In November 2018, KDU entered into a strategic partnership with UOW Global Enterprises, a wholly-owned subsidiary of University of Wollongong Australia. In addition to Malaysia, the University of Wollongong's global network includes campuses throughout Australia, University of Wollongong in Dubai and UOW College Hong Kong.

KDU is now part of the University of Wollongong Australia Global Network and known as UOW Malaysia KDU. In line with that, UOW plans to develop the UOW Malaysia KDU University Colleges at Glenmarie and Penang into universities within the next five to seven years. In addition, UOW intends to offer undergraduate and postgraduate programmes as well as research opportunities at the new Batu Kawan campus, to meet the emerging needs of that region.

Congratulations class of 2021!

Now you are entering into another chapter of your life. Remember to keep learning and remind yourself to be efficient and relevant in whatever field you embark on.

Mr Lim Swee Keat
Chief Executive Officer
Jasmine Food Corporation Sdn Bhd

Your hard work has paid off, and you are now ready to put your knowledge into practice in the so-called real world. Follow your dreams but never forget that circumstances can create obstacles. That is evident enough for all to see during these times. Yet behind each obstacle lies an opportunity waiting for the discerning person to tap into. Don't be too choosy about the job you take on but, certainly, be discerning about how you carry out your tasks, maintaining a high level of diligence and integrity. A job is never a right, it is a gift. And the value you bring to the company is your way of returning the gift, especially since value creation has shown itself to be a defining theme during these pandemic times. All the best for the future and may God's richest blessings be on you now and always.
